

The background of the flyer features a large green recycling symbol at the top. Below it, there are stylized illustrations of a yellow business bag, a brown cardboard box, and a clear plastic bottle with a green cap. The text is overlaid on these elements.

WHAT YOU NEED TO KNOW ABOUT

BUSINESS RECYCLING

Why recycle?

- State law now requires all businesses that generate 4 or more cubic yards of waste weekly to recycle.
- Recycling may provide opportunities for your business to save money.
- Recycling helps conserve resources and extends the life of California's landfills. It also helps create a healthy environment for our community and future generations.

How to get started

It's easy to recycle at your business.

- Make sure your business has arranged for recycling services (see below for more information).
- Use the list on the other side of this flyer to help employees learn what items can be recycled.
- Separate recyclable items from trash inside your business.
- Place your recyclable items in external recycling containers for collection.
- **Note:** Any business or individual may donate, sell and/or otherwise arrange for the pickup of recyclable materials.

Where to go for more information

Visit <http://kwrarecycles.net/> for a list of local recycling and solid waste service providers in your area. Or, call the office at (559) 583-8829 for more information.

For additional general information about recycling and waste reduction, visit the California Department of Resources Recycling and Recovery (CalRecycle) at www.calrecycle.ca.gov.

Types of material to recycle

- Clean, dry paper
- Cardboard and chipboard
- Plastic and glass bottles and jars
- Metal and aluminum cans
- Metal containers and empty aerosol cans

Don't put in recycling bin

- Broken glass
- Contaminated or wet paper
- Plastic hangers
- Rubber tires
- Hazardous waste — paint, batteries, antifreeze, pesticides, cleaning products, appliances, cell phones, TVs, computer monitors
- Do not place rubber tires or hazardous waste in recycling bins. For information on proper disposal or recycling of these materials, see <http://kwarecycles.net>
