RECYCLING AND REUSE PRE-PLAN (Submit plan with permit application)				
Material Type	Who Will Haul Material	Material Will Be: (Circle One)	Recycling/Reuse Facility Where Debris will be Taken	Estimated Recycling/Reuse Rate
Construction and/or Demolition Debris		Recycled / Reused / Landfilled		
Inerts (Cement, Dirt)		Recycled / Reused / Landfilled		
Greenwaste		Recycled / Reused / Landfilled		
Refuse		Landfilled		
Other (Describe)		Recycled / Reused / Landfilled		

FOR OFFICE USE ONLY			
RECYCLING FINAL REPORT – RECEIPTS REQUIRED			
Attach receipts and submit prior to project final (include weigh tickets and/or receipts), to the Permit Center at 1400 W. Lacey Blvd, Hanford, CA 93230			
Material Type	Tonnage	Material was: (Circle one)	Percentage Recycled
Construction and/or Demolition Debris		Recycled / Reused / Landfilled	
Inerts (Cement, Dirt)		Recycled / Reused / Landfilled	
Greenwaste		Recycled / Reused / Landfilled	
Refuse		Landfilled	
Other (Describe)		Recycled / Reused / Landfilled	

Please sign below if you are the owner(s) or legal representative(s):

The purpose of this plan is to identify and outline the methods to be used as the minimum requirements for a construction waste management when the local jurisdiction does not have a construction and demolition waste management ordinance per Section 4.408.2. This construction waste management plan is hereby submitted to comply with Section 4.408.2 of the California Green Building Standards Code. By signing below, I acknowledge that I have read the requirements for this project, and agree to my responsibilities to follow the procedures of this plan.

Person Signing the Plan: PROPERTY OWNER or LEGAL REPRESENTATIVE (please circle)

# The County of Kings Construction and Demolition (C&D) Guide

## C&D in the County

Kings County's C&D recycling program helps the County comply with AB 939 (signed into California State Law in 1989), which requires local governments to divert 50% of waste from landfill disposal by the year 2000, and each successive year thereafter. The State may issue monetary fines of up to \$10,000 per day for non-compliance.

## CALGreen

Effective January 1, 2017, the California Green Building Standards Code (CALGreen) required the diversion of at least 65% of the construction and demolition waste generated during most "new construction" projects. CALGreen mandates permitted new residential and non-residential building construction, demolition, and certain additions and alterations to recycle and/or salvage for reuse a minimum of 65% of the nonhazardous debris generated during the project (CALGreen Sections 4.408, 4.410.2, 5.405.4, 5.408, 5.410.1, 301.1, and 301.3)

## Residential Projects that are Subject to CALGreen

- All demolition work requiring permits
- All new low rise & high rise building construction requiring permits
- All Permitted Additions and Alterations which increase the building's conditioned area, volume, or size
- All Permitted Additions and Alterations which increase or impact at least 5,000 square feet of conditioned & unconditioned building (including reroofing projects)

## Non-Residential Projects that are Subject to CALGreen

- All permitted demolition work All new low rise & high rise building construction requiring permits
- All new buildings
- All Permitted Additions and Alterations (including reroofing projects)
- Recycle 100% of excavated soil & land clearing debris
- Construction Documents must list Universal Wastes & Final Report must prove proper recycling/disposal (for Nonresidential Additions & Alterations only)

## Steps to Comply with CALGreen

### Step 1:

Determine if your project is required to meet the CALGreen Code. Contact the County's Building Division for more information.

### Step 2:

Decide which method of compliance will be best for your project.

### Step 3:

Complete and submit the Recycle and Reuse Plan with your other required permit documents.

### Step 4:

Reduce, reuse, recycle, repurpose at your building site. Either self-haul or hire a permitted C&D Hauler.

### Step 5:

Complete the Recycle and Reuse Plan and submit it to the Building Official for review to demonstrate compliance. (Submit all disposal and recycling receipts.)

County of Kings

Hanford, CA 93230  
559-582-2670

# The County of Kings Construction and Demolition (C&D) Guide

## How Do I Comply?

- Utilize a waste management company that can provide verifiable documentation that 65% of construction waste is being diverted
- If you chose to self-haul, separate different waste materials into distinct containers for hauling, or combine into one for sorting at a permitted C&D recycling facility

## Keep all Disposal and Recycling Receipts

All recycling and landfill tickets must have the permit number and construction site written on them. These receipts need to be submitted in a timely manner to avoid permitting delays and are necessary for mandatory C&D Debris compliance. The Recycle and Reuse Plan must be submitted to the County's Building Division within 30 days of project final.

## C&D Materials Include (but are not limited to):

- Asphalt & Concrete
- Shotcrete
- Metals
- Wood
- Ceiling Tiles
- Drywall
- Plastic (not film)
- Hardiplank siding and boards
- Glass
- Cardboard
- Pallets
- Yard Trimmings
- Ceramic Tile
- Counter Tops
- Plywood
- Stucco
- Asphalt Roofing Shingles (no paper)
- Doors
- Cardboard
- Reusable Fixtures

\*Please note that acceptance of material is subject to the hauler and processing facility the material is taken to. For more information on material acceptability, contact KWRA.
