

County of Kings Purchasing Division

If you sell a commodity or service, you may find a market in the County of Kings (County). The Purchasing Division contracts for the procurement of more than \$100 million in goods, services and construction annually.

Since the principle objective of the Purchasing Division is the procurement of quality goods, services and construction from responsible vendors at the lowest cost, we are constantly seeking new sources of supply. The County welcomes your participation in these efforts.

- Vendor Registration
- Search Current Requests for Proposals/Quotes
- Purchasing Guidelines
