## EXHIBIT D

## **TABLE 2: Dairy Element Policy Index by Policy Number**

Policy No.	Subject	Description	Reference
LOCATION AND SITI	ING POLICIES (Goal 1):		
1.1a	Agricultural Protection	Right to Farm Standards	GP
1.2a	Zoning	AL-10 zoning requirements	SP
1.2b	Zoning	AX zoning requirements	SP
1.2c	Flood zones	Flood hazard areas	SP
1.2d	Water Quality	High groundwater areas	TR(1b(A))
1.2e	Biological	Wetlands and habitat for sensitive species	TR(6)
1.2f	Water Quality	Excessive slope areas, runoff potential	TR(1d)
1.2g	Buffer Zones	To schools, 1/2 mile	SP
1.2h	Buffer Zones	To other dairy facilities, 1/4 mile	SP
1.2i	Buffer Zones	To residential (zones) areas, 1/2 mile	SP
1.2j	Compatibility-General Plan	City, rural communities buffers	SP
1.2)	Compationity-General Fian	erty, tutul communities outlets	51
ZONING REQUIR	REMENTS (Goal 2):		
2.1a	Zoning Requirements	SPR or CUP options for new or expanding dairies	GP
2.1a 2.1b	Herd Limits		GP
		Fluctuation of herd size only, and zoning permits for new facilities	GP GP
2.1c	Herd Limits, changes	Fluctuation of established herd size on existing dairies, requires SPR	
2.1d	Herd Limits, expansions	Expansion of herd size above previously approved zoning permit requires new SPR	GP IN
2.1e	(Reserved)	(Reserved)	(Reserved)
2.1f	Technical Report, requirement	TR required with all applicantion for SPR or CUP	GP
2.1g	DE Standards compliance	CUP required if DE standards are not met	GP
2.2a	Dairy Review Letter	Existing dairy herd limit determination policy	GP
DESIGN STANDA			
3.1a	Technical Report	Requirement and contents	GP
3.1b	Buffer Zones	To nearby residences not associated with a new dairy, 1/4 mile	SP
3.1c	Buffer Zones	To nearby residences not associated with an expanding dairy, no reduction in seperation within 1/4 mile	SP
3.1d	Historic	Histrict and archaeological resources, CHRIS & NAHC	TR(7)
3.1e	Cultural	Archaeological and paleontological resources	TR(7)
3.1f	Traffic Improvements	Review by Pub. Works and CalTrans, encroachment permits for right-of-way work	` '
3.1g	Traffic Impact Study	Technical Report component	TR(8)
3.1h	Light and Glare	Outdoor light design	TR(10)
	Noise		` '
3.1i		Noise generation assessment	TR(10)
3.1j	Credit for Nutrient Reduction	Documented through the SPR process	GP
		Groundwater and surface water, not less than 5 feet of separation between lagoon bottoms and highest	
3.2a	Water Quality	expected groundwater level	TR(1b), (1d), (2a), (2d)
3.2b	Soils	Application of nutrients at agronomic rate, capacity of the soil to assimilate applied nutrients	TR(1a), (2a), (2d)
3.2c	Water wells	150 foot set back from wells and water bodies, no surface run-off	TR(2a)
3.2d	Water Quality	No surface water discharges, floodplain protection	TR(2a), (2d)
3.2e	Water Use	Agronomic rates, even distribution of nutrients	TR(2a), (2d)
3.2f	Monitoring	Design, implement and maintain monitoring program	MP
3.2g	Floodplain Protection	Demonstrate that dairy facilities are constructed outside oif the 100-yr. flood hazard zones	SP
3.2h	Water Quality	Hydrogeologic Sensitivity Assessment (HAS)	TR(1d)
3.2i	Water Quality Water Quality	Proper seals on all domistic and irrigation wells	TR(2d)
3.2j	Water Quality	Report of Waste Discharge (RWD) from RWQCB compliance	GP
2.2-	Di-li- B	Walanda and mildlife (Dialacial Dansons)	TD(C)
3.3a	Biologic Resources	Wetlands and wildlife (Biological Resources) survey	TR(6)
			an.
3.4a	Setback from roads	Building and structures setback from public roads	SP
			mm (4.)
3.5a	Water Quality	Abandoned oil and gas wells, DOGGR	TR(1e)
3.5b	Water Quality	Abandoned oil and gas wells, closure/destruction, protection from fire and explosion	TR(1e)
3.6a	Fire	Fire Department standards	SP
		Expanded portions of a dairy must comply with the standards, no guarentee that existing dairies can meet	
3.7a	Conformance with Standards	standard for expansion	GP
		·	
WATER OUALIT	Y STANDARDS (Goal 4):		
4.1a	. (	Manure Nutrient Management Plan (MNMP): Nutrient management, manure management	TR(2a)
	Manure		()
	Manure		
		Land Application of Manure, nutrient balance, timing and method of applicaation, Irrigation Management	TR(2a[C]) (2d)
4.1b	Manure	Land Application of Manure, nutrient balance, timing and method of applicaation, Irrigation Management Program	TR(2a[C]), (2d)
4.1b 4.1c	Manure Manure	Land Application of Manure, nutrient balance, timing and method of applicaation, Irrigation Management Program  Land management practices to prevent pollution	TR(2a[D])
4.1b 4.1c 4.1d	Manure Manure Dead Animal Management	Land Application of Manure, nutrient balance, timing and method of applicaation, Irrigation Management Program  Land management practices to prevent pollution  Dead Animal Management Plan (DAMP), 72 hr removal limit	TR(2a[D]) TR(5)
4.1b 4.1c	Manure Manure	Land Application of Manure, nutrient balance, timing and method of applicaation, Irrigation Management Program  Land management practices to prevent pollution	TR(2a[D])
4.1b 4.1c 4.1d 4.1e	Manure Manure Dead Animal Management Manure Record Keeping	Land Application of Manure, nutrient balance, timing and method of application, Irrigation Management Program  Land management practices to prevent pollution  Dead Animal Management Plan (DAMP), 72 hr removal limit  Annual estimated of the amount of solid (dry) manure transported off site	TR(2a[D]) TR(5) TR(2a[E])
4.1b 4.1c 4.1d 4.1e	Manure Manure Dead Animal Management Manure Record Keeping Water Quality	Land Application of Manure, nutrient balance, timing and method of applicaation, Irrigation Management Program  Land management practices to prevent pollution  Dead Animal Management Plan (DAMP), 72 hr removal limit  Annual estimated of the amount of solid (dry) manure transported off site  Comprehensive Dairy Process Water Application Plan (CDPWAP), agreements	TR(2a[D]) TR(5) TR(2a[E]) TR(2b)
4.1b 4.1c 4.1d 4.1e 4.2a 4.2b	Manure Manure Dead Animal Management Manure Record Keeping Water Quality Water Quality	Land Application of Manure, nutrient balance, timing and method of applicaation, Irrigation Management Program  Land management practices to prevent pollution  Dead Animal Management Plan (DAMP), 72 hr removal limit  Annual estimated of the amount of solid (dry) manure transported off site  Comprehensive Dairy Process Water Application Plan (CDPWAP), agreements  Lagoons for dairy process water treatment	TR(2a[D]) TR(5) TR(2a[E]) TR(2b) TR(2b)
4.1b 4.1c 4.1d 4.1e 4.2a	Manure Manure Dead Animal Management Manure Record Keeping Water Quality	Land Application of Manure, nutrient balance, timing and method of applicaation, Irrigation Management Program  Land management practices to prevent pollution  Dead Animal Management Plan (DAMP), 72 hr removal limit  Annual estimated of the amount of solid (dry) manure transported off site  Comprehensive Dairy Process Water Application Plan (CDPWAP), agreements	TR(2a[D]) TR(5) TR(2a[E]) TR(2b)

I	1		
4.3a	Hazardous Materials	Hazardous material management	TR(3)
4.3b	Pests	Pest & Vector Management Plan (PVMP)	TR(4)
4.3c	Pests	Compliance with KMAD requirements	SP
4.4a	Water Quality	Adopt CRWQCB's Water Quality Control Plan, Tulare Lake Basin provisions	GP
AIR QUALI	ITY STANDARDS (Goal 5):		
5.1a	Air Quality	Monitor SJVUAPCD activities	MP
5.1b	Air Quality	Odor Management Plan (OMP)	TR(2d)
5.1c	Reserved	Reserved	Reserved
5.1d	Air Quality	Compliance with Regulation VIII	GP
5.1e	Air Quality	Control fugitive dust on unpaved surfaces	TR(9)
5.1f	Air Quality	Control construction equipment emissions	GP
5.1g	Air Quality	Fugitive Dust Emission Control Plan (FDECP)	TR(9)
5.1h	Air Quality	Comply with Air District's control measures for fugitive dust	TR(9)
5.1i	Reserved	Reserved	Reserved
5.1j	Dairy closure cleanup	Removal all residual manure and dairy process water upon closure of the dairy	GP
DAIDW MO	NITODING PROCESS (C. 10)		
6.1a	NITORING PROGRAM (Goal 6):	Track new and expanding dairirs' compliance with the Dairy Element's standards	GP
	Monitoring	County Code Compliance staff duties	GP GP
6.1b	Monitoring	County Code Comphance staff duties	GP
6.2a	Monitoring	Continous monitoring to determine that individual dairies are operating within their established limits	MP, GP
6.2b	Monitoring	Annual lagoon inspections and documentation	MP
6.2c	Monitoring	Dust control monitoring standards	MP, TR(9)
6.2d	Monitoring	Odor control standards	MP, TR(2c)
6.2e	Reserved	Reserved	Reserved
6.2f	Monitoring	Water Quality	MP, TR(1b)
6.2g	Monitoring	Documentation of all monitoring shall be kept on-site and made available to Code Compliance staff	MP, GP
6.3a	Monitoring	Evaluation, mitigation program	MP
6.4a	Monitoring	Complaint resolution	MP
6.4b	Monitoring	Complaint resolution contact person	MP
	Monitoring	Notify operator of complaints	MP
6.4c 6.4d	Monitoring	Water quality data evaluation by qualified professional	MP, TR(1b)

h:/Dept/Curplan/Z-permit/Dairy Elmnt Proced Manual/07 Application Guidelines/d DE Policy Index.xls

NOTES: GP = General Provisions; SP = Site Plan; TR = Technical Report; MP = Monitoring Program
