What Happens after Eligibility is Established?

The Veteran is scheduled to meet with a Vocational Rehabilitation Counselor (VRC) for a comprehensive evaluation to determine if he / she is entitled for services. A comprehensive evaluation includes:

- An assessment of the Veteran's interests, aptitudes, and abilities
- An assessment of whether service connected disabilities impair the Veteran's ability to find and / or hold a job using the occupational skills he or she has already developed
- Vocational exploration and goal development leading to employment and / or maximum independence at home and in the Veteran's community

What is an Entitlement Determination?

A Vocational Rehabilitation Counselor (VRC) works with the Veteran to complete a determination if an employment handicap exists. An employment handicap exists if the Veteran's service connected disability impairs his / her ability to obtain and maintain a job. Entitlement to services is established if the veteran has an employment handicap and is within his or her 12-year basic period of eligibility and has a 20 % or greater service-connected disability rating.

If the service connected disability rating is less than 20%, or if the Veteran is beyond the 12-year basic period of eligibility, then a serious employment handicap must be found to establish entitlement to VR&E Vet-Success services. A serious employment handicap is based on the extent of services required to help a Veteran to overcome his or her service and non-service connected disabilities permitting the return to suitable employment.
