Kings County Farm Bureau Dairy  
Element Review Committee

Regarding the Draft Dairy Element

We, at Pedro Dairy, would like to express our comments. Objections on the different policies and the monitoring programs, we say: it is unrealistic, impractical, it is absurd.

As population grows, dairy producers also have to grow efficiently and productively.

Please allow us to add: May God Bless everybody that honestly work so hard to provide delicious food for all our families.

Sincerely,

Pedro Dairy
